#### **5.0. PRESENTATION ON 2024–2026 MEDIUM TERM EXPENDITURE FRAMEWORK (MTEF)**

5.1. In his presentation of the overview of the 2023 budget performance, the Director Budget, Pastor S. R. Aworere explained both the revenue and expenditure performance of the 2023 Budget as at mid-year. He stated that total revenue expected for the mid-year 2023 was ₦137.99 billion while the total revenue received for the period was ₦99.46 billion, recording a shortfall of about 28%. Out of the

~~₦~~99.46 billion paid into the government’s treasury as at the mid-year of 2023, ~~₦~~82.84 billion had been expended on recurrent and capital outlay from the budget. The total debt repayment recorded as of June was ~~₦~~6.636 billion as against ~~₦~~7.039 billion expected to be paid within same period, while Statutory Transfers stood at ~~₦~~5.679 billion as against ~~₦~~9.036 billion expected within the same period; Other Recurrent Expenditure stood at ~~₦~~46.860 as against ~~₦~~48.845 expected for same period. Capital Expenditure for the same period was ~~₦~~23.663 as against ~~₦~~73.070 expected.

- 5.2. With respect to 2024-2026 MTEF, Pastor Aworere highlighted the macro-economic indices that were used for the projection of revenue for the medium term. The table below summarizes the macro-economic framework for the budget expectation for the years 2024-2026.

**Table I: 2024-2026 Macro-Economic Framework**

Item	2023	2024	2025	2026
National Inflation	17.16%	21.40%	20.30%	18.60%

- 5.3. He explained that due to the programmes to cushion the effects of oil subsidy removal, of which new minimum wage for workers would be key, and the harmonization of the official and the parallel Exchange Rates, the budget size would be put at N250.41billion in 2024. He explained that the decrease in the estimated budget for the 2024 fiscal year from N275.98 billion for the current year 2023 was as a result of the expected reduction in revenue from crude oil occasioned by reduction in fossil fuel consumption in the world which is in turn blamed on climate change.
- 5.4. Speaking on the focus of the 2024 Budget, Pastor Aworere informed the audience that the 2024 Budget would focus mainly on mitigating the various social-economic challenges being faced by the residents of the State as a result of fuel subsidy removal, the harmonization of foreign exchange regime and the climate change and greenhouse effects (flooding, rainstorms, gully erosion, etc.). He submitted that priority attention would be given to Human Capital Development (Education,

Healthcare, Social Safety Net, Youth Development) and Environment & Sewage Sector as well as the completion of major on-going capital projects.
